

SEISMIC ANCHOR SOLUTIONS

ICCONS® is the first company to provide Australia and New Zealand with a complete range of **C1** and **C2** Heavy Duty fixings for **Structural Applications** in **Seismic Risk** applications and projects. ICCONS® together with **SESTO FASTENERS** has pioneered the introduction of **C1** and **C2** certified Mechanical and Chemical anchors through a "World Best Practice" assessment and collaboration with Friulsider and BBTEC making **C1** and **C2** certified fixing systems a reality for the New Zealand engineering fraternity. **PLACEMAKERS®** offers this next generation Seismic Anchoring Solutions, taking safety, design flexibility and performance of fasteners to new heights! You are invited to explore **ICCONS® Design Fix** - a FREE software download - making fastener selection and seismic design easy. **ICCONS®** covers every fastening job - big or small!

A COLLABORATION PROUDLY BROUGHT TO YOU BY SESTO FASTENERS FOR FURTHER INFORMATION CONTACT US ON:
