

TYPE 17 HEAVY DUTY CONSTRUCTION SCREW

Self-drilling screw for heavy duty fastening of timber to timber where additional strength and pull down performance is required.

For landscaping or outdoor heavy timber construction projects.

Suitable for use with:

- Timber sleepers
- Heavy treated timbers
- Outdoor timber construction
- Fencing and gates

T40 Torx Drive Positive bit engagement allowing for maximum torque to be applied.

Washer head Broad holding powers means materials are brought together and held in position, resisting warp and head pull through.

Knurled Shank and Swarf Channel Helps prevent board lift and removes debris for faster drilling.

Technoguard Zinc Rich Alu-Flake Polymer Coating Multi-layered Class 3 protective coating, compatible for use in treated timbers.

Type 17 Sharp Slotted Point Quickly self drills into hard and soft timbers.
